DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-29 and 33-50, drawn to operations research and surveying, classified in class 705, subclass 10.
- II. Claims 30-32, drawn to comparison of examination and standard responses, classified in class 434, subclass 354.
- III. Claims 60-73, drawn a method for underwriting insurance policies, classified in class 705, subclass 4.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has a separate utility such as questioning and ranking the responses of surveyed individuals for forecast demand/research purposes. Invention II has separate utility such as verifying the accuracy of a questionnaire participant's responses for marketing assessments. Invention III has a separate utility such as assessing the risks associated with certain individuals/entities based upon specific criteria and classifications. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the

search required for Group II is not required for Groups I and II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
